- Carbon Copy Books
- Print Management
- RFID Technology

Printing Guidelines

The following guidelines have been created so that we have the best opportunity of delivering the best possible results for your job.

If you need anymore information regarding setting up your artwork correctly please contact us on (08) 8231 6060

Print Set Up / Guidelines

Overview

Popcorn Print cannot accept responsibility for print errors or late deliveries where artwork has been supplied incorrectly, knowingly or not.

Popcorn Print will assure all care is taken when undertaking your print job and proofs are available upon request.

Digital proofs, for smaller digital print jobs only, will incur a nominal fee.

If you have any questions regarding your artwork, please contact the team at Popcorn Print or should you require artwork to be done we have a creative studio right at our doorstep.

Printing Specifications

Please have your artwork supplied as specified below in relation to your print job.

Artwork that is not correctly set-up may be subject to a file handling fee and or delayed turnaround times.

Artwork Generation

We advise that artwork is generated and amended in industry standard software programs such as Adobe InDesign, Photoshop, Illustrator, Acrobat or Quark Xpress.

Popcorn Print does not recommend using artwork originally generated in other software, especially Word, Powerpoint and Publisher.

Artwork supplied should be saved as a print ready PDF, EPS, TIFF or a packaged file including all linked files.

Bleed

Bleed refers to the area extending beyond the trim lines where the artwork or background colour is extended to the edges and helps accommodate the inherent margin of error where the final cuts are made.

All artwork must include a 3mm bleed on all sides to avoid the above problems nor any unwanted white borders. If you're unsure how to set up the bleed, please contact us.

Resolution

All non-vector artwork should be supplied at 300DPI, any artwork supplied lower may produce unexpected results.

PDF's generated from InDesign should be done using 'Press Quality' settings with Transparency Flattener set to High Resolution.

Artwork sizing examples with bleed

Size	Final size	3mm bleed
A2	420 x 594	426 x 600
A3	297 x 420	303 x 426
A4	297 x 210	303 x 216
A5	210 x 148	216 x 154
A6	148 x 105	154 x 111
DL	210 x 99	216 x 105

To set bleed using Adobe Illustrator or InDesign first create a new document at its final size, then in the 'bleed' section, add 3mm of bleed all around.

In Photoshop create your document to your final artwork size, go to "Canvas size", and add 6mm to both the height and to the width, this will add 3mm of bleed to all edges. Making sure the background colour or artwork image fills this bleed area.

Print Set Up / Guidelines

Imposition / Folding / Finishes

All artwork needing impositions, folds or specific finishes, must be accompanied by clear instructions and an example where possible.

Colour

Unless specified all colour printing is CMYK process.

Colours shown by your monitor will not be the same as the print process, due to a monitor displaying in RGB colour mode and is subject to balance and contrast adjustments like a TV.

Spot Colours

Spot colors are printing inks of colors that are specially mixed according to a recipe, these are usually chosen from colour matching systems and swatch books.

They are generally used to achieve an exact color that CMYK process colors cannot provide.

Two main factors to consider when deciding whether or not to use spot colors are cost and budget. Spot colors added to a 4-color job will significantly raise the cost. Carefully choose and define all colours in your files as either CMYK or spot.

Appearance of Black

When using a large ink coverage of black eg. background colour we recommend using a vibrant black. C 40, M 40, Y 40, K 100.

Type

All fonts used should be embedded (PDF's) or converted to outlines (Illustrator EPS / Ai).

Overprint & Knockout

Please ensure that no elements of the design are set to overprint unless specifically required. We cannot always check for this and it is likely to generate unexpected results. If you're unsure about how to check for this please contact us.

PDF Exporting

If you are exporting your file to a PDF format please use the below instructions. Go to File > Export > PDF. Choose 'Press Quality' Go to marks and bleed click on Trim Marks and "Use document's bleed settings.

Compression

Files should be supplied uncompressed wherever possible; All files sent via electronic file transfer methods should be as PDF format or compressed as either .sit or .zip files.

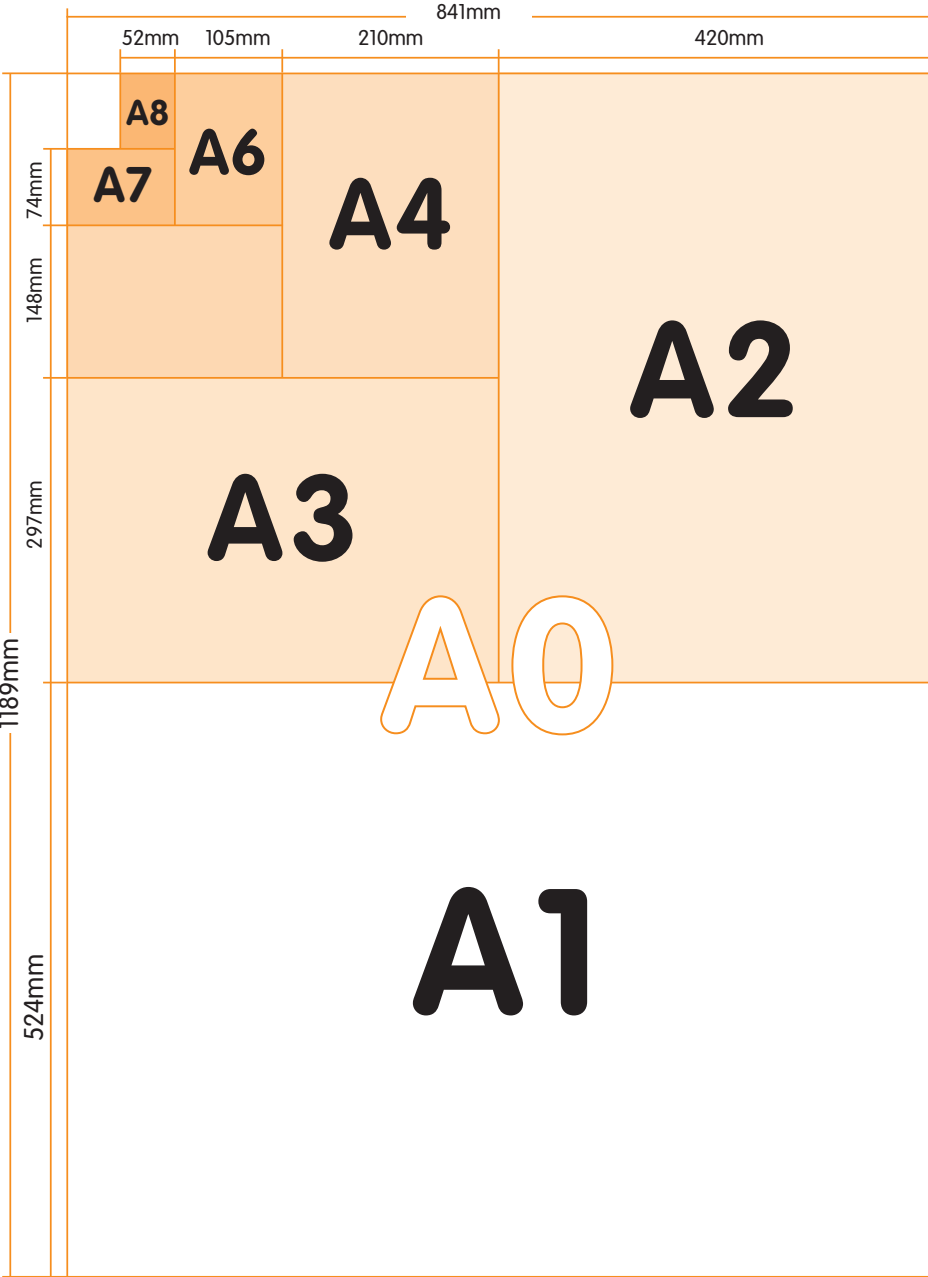

File Delivery

Ideally artwork should be supplied on a CD or DVD. Alternatively the artwork can be emailed providing the file size is less than 5MB. Please remember to include full contact details with your email. All files over 5mb can be uploaded to our FTP, sent on CD or DVD, please phone first to arrange this. Please note that we do not hold any supplied artwork unless otherwise specified.

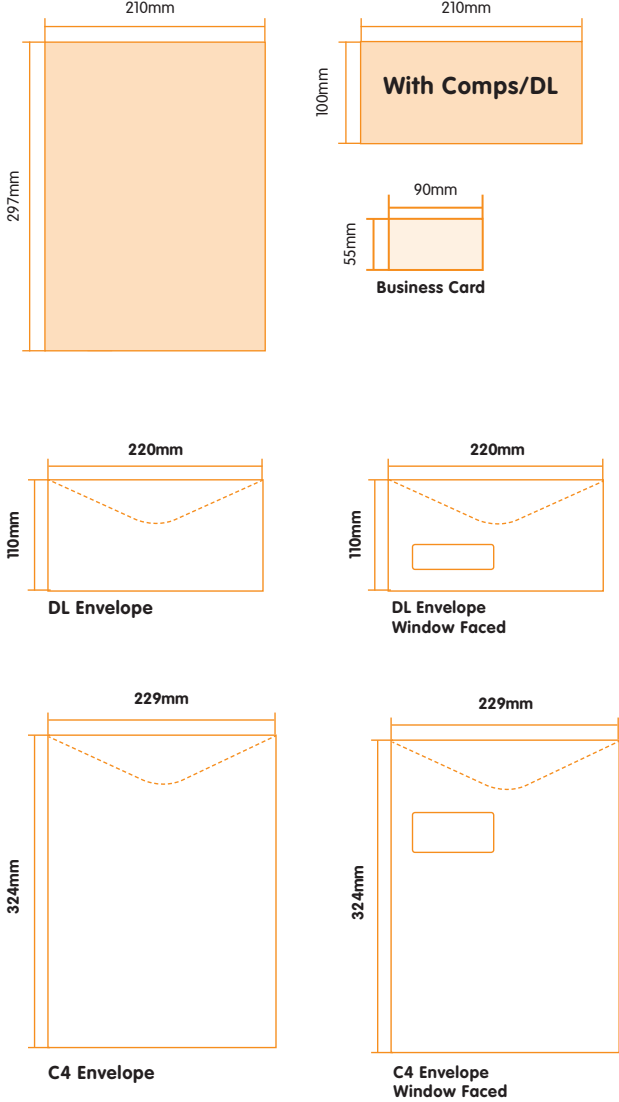

Resupplying Artwork

We aim to check and prepare all artwork as soon as it is received, if you need to amend your artwork and re-supply it you must phone the office to arrange this and clearly label the re-supplied version. Popcorn Print cannot accept any responsibility if incorrect versions are printed when multiple versions have been supplied without clear instructions. If the files are complex and take significant time to prepare for print a charge may be incurred.

Paper Sizes

Paper Sizes

Price Guide

The following prices shown are for certain ranges of printed products for both digital and offset printing, with multiple quantities and turnaround options.

Custom solutions are available on all the following products on numerous stock options and quantities.

If you don't see what you are looking for or require more information please contact us on 8231 6060.

All prices exclude GST.

Posters

Posters are commonly used as an effective marketing communication tool that can generate good results.

Posters are low cost but in regards to marketing and promotion, high in value. They allow you to visually connect with a specific audience. If displayed in the correct spot a poster can expose your brand or event very effectively.

Ideal for event promotions, product launches, sale item displays and in-house promotions and offers.

Popcorn Signs

Signage is a powerful communication medium. Many times it's the first visual experience a customer has with your business' brand. It can be the most effective way of attracting customers and building the success and identity of your business.

Signage can establish and highlight your brands perception becoming one of the most important visual aspects of your business and an effective communication tool before a customer walks in your door.

Popcorn combines the latest large format print technology methods with progressive solutions to offer you signage that not only engages aesthetically but will potentially provide your business with essential exposure 24 hours a day.

The Popcorn Signs Advantage

Popcorn Signs can provide your business with varying levels of service depending on your requirements. Whether you need your signage designed, supplied or installed or all of these services combined Popcorn Signs can assist and we will endeavour to make the process as seamless and as cost effective as possible.

Popcorn Signs Services Include

- Metallic Printing
- A-Frames
- Posters
- Vinyl Backlit & Acrylic Signs
- Corflute, Color Bond and Aluminum Signs
- Real Estate Signs
- Vehicle Signage
- Vinyl Banners
- Roll-up & Stand Banners
- Truck Curtain Railings
- Building Signage & Window Graphics
- Event Signage
- Vinyl Cut Lettering
- Reflective Signage
- Traditional Brushwork
- Neon & Illuminated Signs
- Lightboxes
- Interior and Exterior Billboards plus much more...

Signage Technology

At Popcorn Signs we have invested in the best digital print equipment. The Roland VS640 allows Popcorn to have the leading worldwide provider of wide format printers and print cut machines for professional high quality graphics & signage.

At 1625mm wide the VS-640 is the largest and most versatile print/cut machine to date and sets a new standard for the signage and print industry. The colour library includes a range of metallic and pearlescent colours allowing the end user to add luxurious metallic effects to all printed material. Popcorn is proud to have one of the few machines of it's kind in Australia.

We also have access to a large range of sign equipment from Flat Bed Printers to Wide Format Laminators so that we can successfully meet your requirements.

Display & Exhibition Signage / A-Frames / Vehicles

Popcorn Signs can offer an extensive range of the eye-catching, state of the art, display and exhibition signage, banner displays and counter displays that can suit any size budget.

Our main strength is our edge we provide as a modern day signage supplier that works in a creative studio environment.

As a 21st century business, our team of forward thinkers offer you an innovative, brand focussed solution, that combines effective graphics, market leading presence, and cutting edge concepts that deliver a powerful message to your competitors and clientele stimulating positive "word of mouth" communications.

We understand trial and awareness, visual displays create stimulation that in turn will sell, inform and educate your prospects and is a valuable tool in attracting attention.

Popcorn can design and provide you:

- Portable exhibition stands
- Trade show displays
- Promotional counters and retractable banners
- Media backdrop
- Pop up Walls
- Brochure Stands Banner Walls
- Folding Displays
- LED's
- Digital Signage

Even if the job is small, Popcorn centers the focus on result.

Our creative team is at the forefront of visual communication, assisting you to make correct decisions in selecting the best options for your trade-shows, brand launch, product roll-out or ongoing market awareness visual signage.

Fleet Signage

Popcorn produce high quality, full colour vehicle livery, from a back window panel to full vehicle wraps, trucks, vans and entire fleets.

This can be advertising for your company 24 hours a day.

Popcorn Print can assist in turning your vehicle into cost effective media platform.
